

## INDEX OF AUTHORS

## VOLUME 36, 1974

- ABRAHAM, P., 217P  
 ADAMS, P. M. and BARRATT, E. S. Nocturnal sleep in squirrel monkeys, 201  
 ADAMS, R. D., 99P  
 ADELMAN, L. S., 99P  
 ADELMAN JR., W. J., see KOPIN, I. J., 334  
 ADORJANI, Cs., 439P  
 AGATHON, M., 84P  
 AGNATI, L. F., see PARMEGGIANI, P. L., 465  
 AJMONE MARSAN, C., 567  
 ALAJMO, Y., 77P  
 ALDRIDGE, V. J., see WEINBERG, H., 449  
 ALFONSO, L., 108P  
 ALTIER, H., 106P  
 AMAND, G., 426P  
 AMBROSETTO, G., 94P  
 ANDRÉ, N., 84P  
 ANGEL, R. W. Electromyography during voluntary movement: the two-burst pattern, 493  
 ANTONY, V., 329P  
 ARFEL, G., 85P, 330P  
 ARIAS, L. P., 104P  
 ASPINWALL PEREA, R., 104P, 106P, 109P  
 ASTIC, L., 328P  
 AYALA, G. F., 567  
  
 BABB, M. I. and CHASE, M. H. Masseteric and digastric reflex activity during conditioned sensorimotor rhythm, 357  
 BABB, T. L., MITCHELL JR., A. G. and CRANDALL, P. H. Fastigiobulbar and dentatohalamic influences on hippocampal cobalt epilepsy in the cat, 141  
 BABB, T. L., 209, 213P  
 BACHEN, N. I., 208P  
 BAILLON, J. F., 82P, 425P  
 BALDY-MOULINIER, M., 104P  
 BALLERINI, B., 93P  
 BALLIS, Th., 85P, 333P  
 BALZAMO, E., 331P, 332P; see SERBANESCU, T., 253  
 BANCAUD, J., 86P  
 BAPST, J., 329P  
 BARBEAU, A., CHASE, T. N. and PAULSON, G. W. Advances in neurology. Vol. I. Huntington's Chorea, 1872-1972. A book review by J. S. TUCKER, 445  
 BAROLIN, G. S., 90P  
 BARRATT, E. S., see ADAMS, P. M., 201  
 BARRIONUEVO, G., 107P  
 BASSO, A., 107P  
 BAUMGARTNER, B., 438P  
 BAUST, W., 427P, 441P  
 BAZEMORE, R. P., 220P  
 BEAUMANOIR, A., 85P  
 BECHINGER, D., 435P  
 BECK, U., 428P, 441P

## INDEX OF SUBJECTS

## VOLUME 36, 1974

(Abstracts from Society Proceedings are not included)

- ACOUSTIC, see AUDITORY
- ACTIVATION, EEG with flicker, see PHOTIC STIMULATION
- AFTER-DISCHARGE, and chemical responsiveness of cortical neurons, 265
- excitation and inhibition phenomena, 308
- AGRYPNIA, treatment with 5-hydroxytryptophane, 1
- ALCOHOL, see DRUGS
- ALPHA RHYTHM, densities, inter-session stability, 538
- ANALYSIS, see TECHNIQUE
- ATTENTION, effects on auditory responses, 191
- AUDITORY, jaw reflex, 629
- responses, components evaluation, 179
  - responses, effects of attention, 191
  - responses, effects of sleep, 179
  - responses, ethanol effects, 19
  - responses, frequency-following: brainstem pathways, 415
  - responses, in premature infants, 367
  - responses, variability in newborns, 155
  - scalp muscle reflexes, 179
- BARBITURATES, see DRUGS
- BLOOD, cerebral ischemia, EEG analysis, 471
- flow cerebral, during speech and reading, 561
- BOOK REVIEWS, see *Table of Contents*
- BRAIN death, EEG isopotential and cranial nerve areflexia, 70
- death, EEG technique, 65
  - dominance and EEG asymmetries, 581
  - electrical activity in various conditions, see EEG MISCELLANEA
  - ischemia in rabbit, EEG computer analysis, 471
  - localization of language production, 562
- BRAIN-STEM, infarction: sleep patterns, 657
- midbrain cooling in experimental generalized epilepsy, 517
  - pathways for auditory responses, 415
  - reflexes, EMG study, 629
  - reticular formation and generalized epilepsy, 499, 517
- CEREBELLUM, fastigiolobular and dentatohthalamic influences on hippocampal epilepsy, 141
- CEREBRAL CORTEX, activity unitary, see MICRO-ELECTRODE STUDY
- chronically undercut, effects of acetylcholine, 113
- CHILDREN, EEG changes in deep hypothermia, 661
- newborn, auditory responses variability, 155
  - premature infants, EEG and auditory responses, 367
- CHOREA, fibrillary of Morvan's, with insomnia, 1
- Huntington's, EEG and psychometric study, 387
- CONDUCTION, nerve, see NERVE
- CONTINGENT NEGATIVE VARIATION, changes under stress in male and female, 47
- evoked potentials and "emitted" events, 449
- CONVULSIONS, fits, attacks, see EPILEPSY, SEIZURE(S)
- DC SHIFTS, see STEADY POTENTIALS
- DEATH, cerebral, see BRAIN
- DENTATE NUCLEUS, see CEREBELLUM
- DEPTH ELECTROGRAPHY, detection of driving foci during ictal episodes, 569
- DOMINANCE, cerebral, and EEG asymmetries, 481
- DRUGS, acetylcholine, epileptogenic effects, 113
- alcohol withdrawal in mice, EEG-behavioral study, 233
  - amobarbital, intracarotid and intravertebral injections, effects on generalized epilepsy, 499
  - diazepam, anticonvulsant effects, 569
  - epileptogenic and anticonvulsant, effect on neuronal membrane and synapses, 567
  - ethanol, effects on EEG and evoked potentials, 19
  - 5-hydroxytryptophane in sleeplessness, 1
  - Metrazol, see Pentyleneetetrazol
  - penicillin and K on hippocampus, 337, 347
  - penicillin to induce generalized epilepsy, 499
  - pentobarbital, effects on evoked potentials, 123
  - pentyleneetetrazol, in experimental generalized epilepsy, 499
  - topical cortical application, method, 63
- DYSLEXIA, see READING
- DYSTROPHY, muscular progressive, EMG study, 576
- EEG 8TH INTERNATIONAL CONGRESS, Round Tables transactions, 561
- EEG MISCELLANEA, during deep hypothermia, 661
- during mental activity, 577
  - during total circulatory arrest, 661
  - effects of alcohol, 19
  - electrode placement ("10-20") in infants, 303
  - in amnesia, transient, global, 409
  - in Huntington's Chorea, 387
  - in premature infants, 367
  - in suspected brain death, 65, 70
  - mathematico-statistical modelling, 564
- EEG PATTERNS, MISCELLANEA, asymmetries, 481
- "emitted" cerebral events, 449
  - epileptiform discharges, computer analysis, 541
  - "expectancy wave", see CONTINGENT NEGATIVE VARIATION
  - sensory motor rhythm and facial muscle reflexes, 357
  - theta hippocampal, in rat, 291
- ELECTRODE(S), scalp, placement in infants, anatomic correlates, 303
- ELECTROMYOGRAPHY, analysis, automatic in clinical practice, 575
- computer analysis, a Round Table, 574
  - during acoustic jaw reflex, 629
  - during voluntary movement, 493
  - during voluntary muscle contraction, 585
  - in motor unit diseases, 395
  - in progressive muscular dystrophy, 576
  - of phonation, 563
- ELECTRO-OCULOGRAPHY, in dyslexia, 651
- EPILEPSY, attacks, fits, seizures, see also SEIZURE(S)
- basic mechanisms, a Round Table, 567
  - EEG paroxysmal patterns, computer analysis, 541
  - experimental (acetylcholine) in isolated cortex, 113
  - experimental (afterdischarge), 308
  - experimental (cobalt) in hippocampus, cerebellar influences, 141
  - experimental, cortical and spinal phenomena, 569
  - experimental, EEG, DC shifts and unit activity, 568
  - experimental generalized (penicillin), 499, 517
  - experimental, membrane and synaptic mechanisms,

- 567
  - experimental (potassium and penicillin), in hippocampus, 337, 347
  - unit activity, role of inhibition, 567
- EVOKED POTENTIALS, analysis, semi-automatic, 547
  - auditory, see AUDITORY
  - from primary olfactory nerve stimulation, 33
  - hypothalamic, pentobarbital effects, 123
  - olfactory, 109
  - somatosensory, during voluntary movement, 53
  - visual, see PHOTIC STIMULATION, VISUAL
- EYE, EOG abnormalities during pursuit movement in dyslexia, 651
  - movements in sleep, see SLEEP
- FRONTAL, cortex, periocular projections in *papio papio*, 163
- GABA, microiontophoretic application to cortical neurons, 265
- GENICULATE BODY, see THALAMUS
- HIPPOCAMPUS, see RHINENCEPHALON
- HOFFMANN'S REFLEX, in quadriceps muscle of normal man, 225
- HORMONES, adrenal deficiency, effects on sleep, 283
  - growth and hyperthyroidism, effects on sleep, 259
  - thyroxine effects on baboon photosensitivity, 253
- HYPOTHALAMUS, anterior, heating and EEG fast activity, 465
  - evoked responses in unrestrained rats, 123
- INSOMNIA, see SLEEP
- ISCHEMIA, cerebral in rabbit, EEG computer analysis, 471
- LANGUAGE, see SPEECH
- MATURATION, see ONTOGENESIS
- MENTAL activity, EEG spectral and multivariate analysis, 577
- METABOLISM, oxidative during hippocampal seizures, 347
- METHODS, see TECHNIQUE
- MICRO-ELECTRODE STUDY, chronic, of single cell in unrestrained cats, 314
  - during GABA and glutamate application, 265
  - in experimental epilepsy, 567-569
  - in olfactory bulb, 609
  - of cortical neurons during afterdischarge, 308
- MONOAMINE OXIDASE, and driving responses, 205
- MOTOR, potentials in rats, 131
  - supraspinal and peripheral disturbances, EMG study, 574
  - unit diseases, EMG study, 395
  - unit potential and single muscle fiber action potential, 575
  - unit potentials during voluntary contraction, 585
  - unit potentials in muscular dystrophy, 576
- MOVEMENTS, forelimbs, electrophysiological correlates in rats, 131
  - induced seizures without sensory feedback, 403
  - voluntary, effect on evoked potentials, 53
  - voluntary, EMG "two-burst" pattern, 493
- MUSCLE contraction, voluntary, generating force mechanism, 574
  - electrical activity, see ELECTROMYOGRAPHY
  - single fiber recruiting and discharge characteristics, 574
  - tremor, physiological, and visual feedback, 457
- NERVE, action potential and morphometry, 573
  - conduction, structural and ultrastructural correlates, 570
  - cranial areflexia in brain death, 70
  - histometric normal values in man, 572
  - histopathology and electrophysiological correlates, a Round Table, 570
  - peripheral, morphometric evaluation, 571
  - primary olfactory, topographic organization, 33
    - single fiber, conduction in demyelinated regions, 573
- NEURON, activity, see MICRO-ELECTRODE STUDY
- OLFACTORY bulb, transmission from mitral-tufted to granule cells, 609
  - nerve, topographic organization, 33
- ONTOGENESIS, EEG and auditory responses in premature, 367
- OXYGEN, hypoxia effects on visual responses, 619
  - metabolism, during hippocampal seizures, 347
- PERCEPTION, speech, electrophysiology, 561
- PHONATION, EMG study, 563
- PHOTIC STIMULATION, driving responses and MAO, 205
  - in baboon, effects of thyroxine, 253
  - regional responses by epoch averaging, 171
  - with random flashes, clinical study, 525
- POTASSIUM, and penicillin, epileptogenic effects, 337, 347
  - effects on oxidative metabolism, 347
- PSYCHIATRY, schizophrenia, EEG spectral analysis, 377
- READING, blood flow, cerebral, changes, 561
  - electro-oculographic changes in dyslexia, 651
- REFLEX, acoustic jaw: relation to other brain-stem and microreflexes, 629
  - Hoffmann's, 225
  - masseteric and digastric, during sensory motor rhythm, 357
- RHINENCEPHALON, hippocampal activity during alcohol withdrawal, 233
  - hippocampal epilepsy and cerebellar influences, 141
  - hippocampal recurrent seizures, experimental, 337, 347
  - hippocampal theta rhythm, in unrestrained rat, 291
- SCHIZOPHRENIA, see PSYCHIATRY
- SEIZURE(s), focal, movement-induced, 403
  - in man, detection of driving foci, 569
- SKIN, periocular and facial, cortical projections, 163
- SLEEP, cycle content and duration, 275
  - effects on auditory responses, 179
  - fast activity episodes and hypothalamic heating, 465
  - hyperthyroidism and growth hormone, 259
  - in normal, Addison's diseases and pituitary insufficiency, 283
  - insomnia, long lasting, EEG study and 5-HTP treatment, 1
  - nocturnal, in squirrel monkey, 201
  - patterns in a patient with lesion of raphe nucleus, 657
  - ponto-geniculo-occipital activity, sequential analysis, 597
  - REM stage evolution, 245, 275
- SOCIETY PROCEEDINGS,
  - Alpine, XV meeting, Avoriaz (January, 1973), 89
  - American EMG, Boston (April, 1973), 97
  - Argentinian, and Uruguayan, Montevideo (December, 1972), 103
  - British, Stoke-on-Trent (May, 1973), 217
  - British, London (October, 1973), 551
  - Czechoslovak, Velké Karlovice (May, 1971), 76
  - Eastern (U.S.A.), New York (November, 1972), 220
  - French language countries, Paris (October 1972), 87
  - French language countries, Paris (December 1972), 327
  - French language countries, Paris (March, 1973), 425
  - French language countries and Swiss, Lyon (June, 1972), 81
  - German, Munich (September, 1972), 427
  - Norwegian, Oslo (May, 1973), 208
  - Swedish, Stockholm (December 1972), 95
  - Swiss and French language countries, Lyon (June, 1972), 81
  - Uruguayan and Argentinian, Montevideo (Decem-

- ber, 1972), 103
- Western (U.S.A.), San Diego (February, 1973), 209
- SPEECH, mechanisms, a symposium, 561
- SPINAL CORD, motoneurons, activity and cortical phenomena during seizures, 569
- STEADY POTENTIALS, during hippocampal seizures, 347
  - EEG and unit activity during seizures, 568
  - in undercut cortex after acetylcholine application, 113
- STRESS, effects on CNV, 47
- TECHNIQUE, application of substances to the brain in physiological conditions, 63
  - clinical neurophysiology, use of small general purpose computer, 576
  - coagulator (high-frequency) for decerebration, 311
  - data collection and analysis, new methods, a Round Table, 563
  - data collection and banks, 565
  - EEG analysis, factorial, 319
  - EEG epileptiform patterns, simultaneous averaging, 541
  - EEG frequency analysis, numerical, 563
  - EEG, high sensitivity recording in suspected brain death, 65
  - EEG mathematico-statistical modelling, 564
  - EEG remote monitoring and recording (VESLA system), 566
  - EEG topography, current thoughts, 566
  - electrode, epidural for thin skull animals, 671
  - EMG computer analysis, a Round Table, 574
  - evoked potentials, semi-automatic, multi-channel Fourier analysis, 547
  - leucotome, remote-control, 668
  - micro-electrode chronic recording, 314
  - micro-pipettes beveling, 323
  - reconstruction of cerebral hemisphere from serial sections, 545
- TEMPERATURE, hypothalamic heating, effect on EEG sleep fast activity, 465
  - hypothermia, deep in children, EEG changes, 661
  - midbrain cooling and generalized seizures, 517
- THALAMUS, activity during alcohol withdrawal, 233
  - lateral geniculate activity during sleep, 597
  - lateral geniculate responses during learning, 639
  - pulvinar responses during learning, 639
- TREMOR, physiological and visual feedback, 457
- VISUAL discrimination learning, 639
  - feedback and physiological muscle tremor, 457
  - responses and MAO, 205
  - responses, see also PHOTIC STIMULATION
  - responses, to random flashes, 525
  - responses, variability with luminance changes, 533
  - system responses during hypoxia, 619
  - system responses during visual discrimination learning, 639
